Career Objective

Motivated B.Tech Computer Science (Data Science) student seeking an entry-level role in Data Science or Software Development. Passionate about building real-world applications using Python, Machine Learning, and Web Technologies to solve practical problems.

Technical Skills

Programming Languages: Python

Frameworks & Technologies: Flask, Machine Learning, Data Analysis

Python Libraries: Pandas, NumPy, Matplotlib, OpenCV, TensorFlow

Web Technologies: HTML, CSS, JavaScript

Database: SQLite

Tools: Git, GitHub, VS Code, Render(Deployment)

Soft Skills: Communication, Team Collaboration, Adaptability

Internship Experience

Data Science Intern | CODTECH IT SOLUTIONS PVT. LTD

Aug 2025 – Sep 2025

- Performed data preprocessing, cleaning, and exploratory data analysis (EDA) using Python
- Created data visualizations using Pandas, NumPy, and Matplotlib on real-world datasets
- Worked on end-to-end machine learning workflows and data-driven decision making

Projects

NutriSnap-X – AI-Based Nutrition Analyzer | Python, Flask, TensorFlow, OpenCV

- Developed an AI application that detects food items from images using deep learning (MobileNetV2)
- Calculated nutritional values including calories and health metrics with multi-food detection capability
- Deployed as a real-time web application with automated report generation and smart health alerts

SmartHire-AI – AI Resume & Job Assistant | Python, Flask, JavaScript | Demo: alaganesh-portfolio.onrender.com

- Built an AI-powered chatbot that analyzes resumes, provides improvement feedback, and suggests job roles
- Designed an interactive WhatsApp-style chat interface with automated NLP-driven responses

BillsSmart – Expense & Bill Management System | Python, Flask, SQLite

- Developed a full-stack web application to track expenses, manage bills, and generate spending insights
- Implemented user authentication, secure data storage, and automated financial reporting

IDChat – No-Login Real-Time Chat Application | Flask, JavaScript, HTML, CSS

- Built a real-time one-to-one chat application with a unique ID system, requiring no login or registration
- Focused on user privacy, lightweight performance, and a responsive fast-loading UI

Education

B.Tech – CSE (Data Science)

CGPA: 7.54 / 10

Bharath University, Chennai • 2022 – 2026

Intermediate – MPC

76.3%

Narayana Junior College, Guntur • 2020 – 2022

10th Standard – CBSE

55.8%

SSCRP School, Chilakaluripet • 2019 – 2020

Certifications

- Data Science Using Python – NPTEL
- Data Analytics & Visualization Job Simulation – Accenture
- AI Tools Workshop – be10x | Power BI Workshop – Office Master
