EDUCATION

Bachelor of Technology

Bharath University, Chennai,

2022 – Pursuing

- *COMPUTER SCIENCE AND ENGINEERING - DATA SCIENCE, CGPA: 7.54/10*

Intermediate

Narayana Junior College, Guntur

2020-2022

MPC – 76.3%/100

10th Standard

SSCRP School, Chilakaluripet

2019-2020

CBSE – 279/500(55.8%/100)

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, HTML, CSS, JavaScript (Basics), Java (Basic)
- **Technologies:** Data Science, Machine Learning (Basics), Data Analytics, Web Development (Basics)
- Python Libraries: Pandas, NumPy, Matplotlib
- **Tools:** Power BI, MS Excel, Git & GitHub, Flask
- **Soft Skills:** Communication, Team Collaboration.

INTERNSHIPS

Data Science Intern – CODTECH IT SOLUTIONS PVT. LTD

Aug 2025 – Sep 2025

- Worked on data preprocessing, data cleaning, and exploratory data analysis using Python.
- Performed data visualization using Pandas, NumPy, and Matplotlib to understand dataset patterns.
- Completed assigned tasks related to basic machine learning workflow and practical data analytics.
- Gained hands-on experience with real-world datasets and understanding of industry-style reporting.

PROJECTS

BillSmartApp — Bill Tracking & Reminder System

- Developed a Flask-based web application to manage monthly bills, due dates, and automated reminders.
- Integrated WhatsApp and Email notification system to alert users before bill deadlines.
- Implemented secure user authentication, CRUD operations, and database connectivity using SQLAlchemy.
- Designed a simple front-end for easy bill entry, category sorting, and history tracking.

Techstack: Python, Flask, SQLAlchemy, HTML, CSS, JavaScript, SQLite.

NutriSnap — Nutrition Value Estimation System

- Built a system that estimates nutrition values (calories, protein, carbs, fat) from food images.
- Applied basic machine learning and image-processing methods to identify food items and map nutritional data.
- Created a clean UI for users to upload images and instantly view nutrition breakdown.
- Processed multiple food categories using Python libraries and dataset mapping.
- Techstack: Python, Pandas, NumPy, Image Processing Basics, ML Basics.

CERTIFICATIONS

- Data Science Using Python by NPTEL
- AI Tools Workshop – **be10x**
- Data Analytics and Visualization Job Simulation – **Accenture**
- Power BI Workshop – **Office Master**

HOBBIES & Personal Qualities

- Learning new technologies
- Photo & Video Editing
- Adaptable, quick learner
- Team player.

ACHIEVEMENTS & EXTRA CIRCULAR ACTIVITIES

- Successfully developed two complete real-time projects: **BillSmartApp** and **NutriSnap**, demonstrating strong practical and problem-solving skills.
- Completed a certified **Data Science internship**, gaining hands-on experience with real-world datasets and analytics workflows.
- Actively improving technical skills in Python, SQL, Power BI, and Data Science through continuous learning and project work.
- Maintained consistent academic performance while building technical knowledge and completing certifications in AI and Data Analytics.
